Chicago, Nov. 22.—Gales on the great lakes and tornadoes on the land caused serious loss of life and property yesterday. To the north, east, south, and west of Chicago the storms raged, sinking vessels or driving them ashore on the inland seas and wrecking hundreds of houses in towns visited by the high winds. Rivers were turned into torrents and bridges carried away.

On the northern tier of lakes the hurricane was most severe, numerous disasters to shipping being reported. Hundreds of vessels, warned of the peril, remained in port and refused to risk the danger of a voyage.

At Buffalo, on Lake Erie, the wind reached a velocity of eighty miles an hour, and at other points it was almost as severe.

Ohio and Colorado suffered heavy loss from tornadoes. In the former state Tippicanoe, Bucyrus, Sandusky, Leipsic and Lima reported considerable damage by the wind. In the oil fields derricks were blown down and sheds wrecked and tanks damaged.

Colorado Springs was swept by a seventy mile wind and the streets filled with debris from the wrecked buildings. Telephones, telegraph and electric light wires were blown down all through the state, so that it is impossible to learn the extent of the damage. Colorado Springs was in darkness last night and the broken wires made travel in the streets dangerous. Utah also reported heavy snow and a blizzard raging.

The storm which swept Tennessee and Minnesota on Tuesday proved more serious than was at first reported. Up to noon today it was known that seventy-one persons had been killed and fifty-one injured seriously, with many districts still cut off from communication.

### MORE THAN 100 ARE KILLED.

#### Great Loss of Life in Tornado Swept Southern States.

Memphis, Tenn., Nov. 22.—The storm which swept over Mississippi, Arkansas and Tennessee, according to the incomplete reports at hand, caused great loss of life and much damage to property. It is believed that more than 100 persons perished in the tornado swept districts.

The difficulties in the way of securing information from the devastated sections are almost insurmountable. The places affected are remote and isolated and at best they are not well equipped with means of communication, and the storm which last evening carried devastation across the country at the same time swept away the wires so that telegraph and telephone alike were put out of service. Dependence has necessarily been placed in the railroad men and travelers coming from different parts.

In Mississippi the greatest loss of life and damage to property occurred near Tunica, Lula and Hernando. A report by carrier from a point thirteen miles from Tunica says that the tor-

nado's devastation was so great that it will take weeks to calculate it. Five negroes lost their lives on the Hamlin place.

In Tunica the school house, church and a number of buildings were totally destroyed. More than fifty negroes are missing, and it is feared that several of them have perished. Cotton is reported badly damaged.

### STORM ON LAKES AND LAND.

#### Wind Causes Great Damage and Loss of Life.

Chicago, Nov. 22.—Gales on the great lakes and tornadoes on land caused serious loss of life and property yesterday. To the north, east, south, and west of Chicago the storms raged, sinking vessels or driving them ashore on the inland seas and wrecking hundreds of houses in towns visited by the high winds. Rivers were turned into torrents and bridges carried away. During the last twenty-four hours the telegraph service between Cleveland, Chicago, Buffalo and Columbus has been badly crippled as the result of the storm. The wind knocked down telegraph wires between Buffalo and Chicago, and Cleveland and Columbus, and an army of linemen has been sent out to repair the damage. On the northern tier of lakes the hurricane was most severe, numerous disasters to shipping being reported. Hundreds of vessels, warned of the peril, remained in port and refused to risk the danger of a voyage.

At Buffalo, on Lake Erie, the wind reached a velocity of eighty miles an hour, and at other points it was almost as severe. Ohio and Colorado suffered heavy loss from tornadoes. In the former state Tippicanoe, Bucyrus, Sandusky, Leipsic, and Lima reported considerable damage by the wind. In the oil fields derricks were blown down, sheds wrecked, and tanks damaged. California, too, reports a severe wind and rain storm, causing loss to shipping along the Pacific coast.

### Two Drowned in Saginaw Bay.

Bay City, Mich., Nov. 22.—Frank Benway of this city and William McKay of Kawkawlin, fishermen, were drowned in Saginaw Bay. They were fishing several miles from the shore and a heavy windstorm which suddenly sprang up capsize their boat. Both men sank almost instantly.

### Founders in Lake St. Clair.

Detroit, Mich., Nov. 22.—After pounding around in Lake St. Clair for several hours fighting the storm which had raged all day, the small steam barge Myrtle M. Ross foundered and went to the bottom three miles to the east of the south end of the ship canal. Captain J. W. Surls and a crew of five men and a woman cook were rescued from the rigging of the steamer, where they had been clinging for over an hour, with the heavy seas breaking completely over them, by the crew of the steamer W. L. Frost.

### Barge Sinks Near Toronto.

Toronto, Ont., Nov. 22.—The steam barge Jennie of Hamilton, loaded with pig iron and bound for Coburg, sank outside Pickering harbor, about 20 miles east of here, during the storm today. The crew reached the shore in safety. It is thought that the cargo can be saved.

## TO RECLAIM ARID LANDS OF THE WEST

Chicago, Nov. 22.—After a preliminary meeting last night the National Irrigation Congress met in its ninth annual session today. Secretary Maxson reported great progress during the past year. The delegates agreed that it was the duty of the government to redeem the vast plains in the West to furnish a new country for the armies of the unemployed in the cities. The cultivation of beet sugar was claimed to be especially adapted to the reclaimed lands, making the United States a leading sugar producer. Captain Chittenden advocated the building of reservoirs at the headwaters. Tonight General Miles, Senators Foster and Bard and Teddy Roosevelt will speak.

## TO CONSIDER FUTURE

### Meeting of the Wisconsin Democratic State Committee Called—Talk of Reorganization.

Milwaukee, Nov. 22.—The democratic state central committee will meet at the Plankinton house next Tuesday evening for the purpose of extracting some consolation from the results of the recent election. This is not the way that Chairman Warden puts it in his call, which has just been issued, but it will be the real object of the meeting just the same.

Mr. Warden says that he wishes as many of the members to attend as possible in order that a discussion may be had over the future work of the committee and to listen to the report of the chairman on the work of the past campaign. There will probably be some talk of reorganization, but

under the guidance of the present leaders.

### BRYAN'S VOTE SAME AS IN 1896.

Strange Feature Comes Out in the Official Canvass in Ohio, Columbus, O., Nov. 22.—The official tabulation of the vote of Ohio, completed today by the secretary of the state, shows some rather unusual and wholly unexpected results. Perhaps the strangest feature of the tabulation is the fact that Mr. Bryan received exactly the same number of votes this year as he did in 1896—474,882. The tabulation shows that none of the minority parties—whose vote was much smaller than expected—is entitled to a place on the official ballot next year, and if they place candidates in nomination it will have to be done by the circulation of petitions.

General Roberts is all right. London, Nov. 22.—General Roberts reports today that his accident with his horse won't keep him from work and he hopes to be about in a few days.

## FOR A NATIONAL PURE FOOD LAW

### THE DAIRY COMMISSIONERS EN-DORSE GROUT BILL

Officers Elected at Milwaukee Yesterday Afternoon—No Action on Report of Special Committee on State Legislation—National Pure Food and Anti-Oleo Bills Will be Promoted

Milwaukee, Nov. 22.—The national association of Dairy and Food Commissioners adjourned sine die last evening after deciding to meet next year at New York City in September. They passed resolutions in favor of the oleomargarine bill, the Sherman Trademark bill and a national Pure Food bill.

The report of the special committee on pure food legislation was ordered printed in the minutes and action was suspended for one year; the committee being continued in office with instructions to supplement their report if it was deemed advisable at the New York meeting. Prior to final action on the report, the vinegar clause was referred back to the committee. Vinegar and glucose were the two subjects that occupied the most of the time of the afternoon and evening sessions.

The following officers were elected at the evening session:

- President—A. H. Jones, Illinois.
- First Vice President—Jesse C. Cope, Pennsylvania.
- Second Vice President—E. A. McDonald, Washington.
- Third Vice President—F. W. Herbst, Ohio.
- Secretary and Treasurer—John B. Noble, Connecticut.
- Executive Committee—President Jones and Secretary Noble, ex-officio; H. C. Adams, Wisconsin; J. E. Blackburn, Ohio; J. B. Bailey, Oregon.

Food and Dairy Commissioner J. C. Kracke of New York was appointed to represent the association at Washington in advocating the passage of the Grout and Sherman bills and in the passage of the national pure food bill.

## WORK ON PLANS TO CUT WAR TAX

### House Ways and Means Committee Making Estimates for Reduction of \$30,000,000.

Washington, D. C., Nov. 22.—Indications now point to a reduction of at least \$30,000,000 in the war taxes. Secretary Gage believes that the treasury can stand a reduction of this kind, and the Ways and Means committee now considering this matter will work along this line. The republican members of the committee held two sessions today and went into the question at some length.

The determination of the committee not to reduce the taxes on beer, whiskey and tobacco has awakened the those interests and they are likely to renew their efforts towards securing relief. Although the medical interests will be taken care of their representatives are here vainly endeavoring to get a hearing. They will not be heard but will be permitted to file a brief.

The beer whiskey and tobacco dealers have determined to concentrate their influence on the senate finance committee when the repeal bill reaches that body, as it is apparent that the House will give them no reduction in taxation.

"In my opinion action ought to be taken," said Representative Steele, to decrease the amount of revenue accruing from the war revenue law by an amount somewhere in excess of \$25,000,000.

### Chicago Man's Fat Job.

Washington, D. C., Nov. 22.—The president today appointed Captain William Meredith of Chicago chief of the bureau of engraving and printing.

### Punished Boers Severely.

Bloomfontein, Nov. 22.—A detachment of lancers caught the Boers in the open country near Baderspan, Sunday. The lancers rode through them several times punishing them severely. Brand was among the wounded.

## PLANS TO PUSH THE FILIPINOS

General MacArthur Wishes to Make Effective Use of Volunteers.

## ARMY OF 75,000 MEN

The Result of the Presidential Election Merely Concident with His Plans.

## VIGOROUS CAMPAIGN IS ON

Manila, Nov. 22.—General MacArthur was asked today whether the result of the election in the United States was in any way responsible for the orders to push operations against the Filipinos. He replied that the result of the election was merely coincident with the other features of the situation. He added that the return of the soldiers and marines from China with the recruits who had arrived recently would increase the number of troops to 70,000 men. The enlargement of the forces, the ending of the rainy season, better roads, improved transportation, and the desire to make the most efficient use of the volunteers before their term of service expires in June, are all contributory to the most active campaign.

### Favors an Army of 75,000.

Concerning the replacing of 35,000 volunteers, General MacArthur said he favors the establishment of a standing army of 75,000 men, and authorizing the president to increase it to 100,000. The general said that he was enlarging the force in General Young's district to nearly 7,000 men, that heavy reinforcements are being sent to General Hughes in the island of Panay, that more troops had been ordered to Southern Luzon, and that various column movements had been planned.

The stranding of the coasting transport Indiana is causing a long delay in reaching a number of the remote coast stations in Southern Luzon, which have subsistence to November 1 only, and will have to depend largely on foraging until the Indiana is floated or another steamer is secured.

### Returns With Chinese Loot.

The customs warehouses are congested, which is delaying the commerce of Manila. General Smith, the collector of the port, at a meeting today of many importers urged the necessity for the removal of the goods. The merchants talk of organizing a company for the erection of bonded warehouses.

The soldiers and marines who have returned from China are selling quantities of curios looted from the residences of nobility or wealthy persons at Peking and Tien Tsin. Many of them are valuable and ridiculously cheap, and a number of such trophies have been sent to the United States for Christmas presents.

## HALL DECIDES NOT TO BE A CANDIDATE

Will Not Enter the Race for the Speakership—Clear Field for Ray of La Crosse.

New Richmond, Wis., Nov. 22.—A. R. Hall of Knapp will not enter the speakership race against George H. Ray of La Crosse, the present speaker and candidate for re-election to that position. In a letter to the editor of the Republican Voice of this city he says:

"It has been decided by my friends that I must remain on the floor, and while I am a little disappointed I shall abide by their decision and shall not be a candidate."

This leaves practically a clear field for the La Crosse man.

## HE CANNOT ESCAPE HIS ULTIMATE FATE

Russian Nihilists Send Threatening Letters to the Czar—Kitchen Staff is Dismissed.

Vienna, Nov. 22.—The Kurier Lwow, ski of Lemberg which is responsible for the sensational dispatches on the czar's illness says that the whole kitchen staff of the imperial palace at Livadia has been dismissed. The Czar, the paper says, has received thousands of letters affirming that though he recovered this time he could not escape his ultimate fate.

St. Paul, Minn., Nov. 22.—A trifling improvement in the condition of Senator Davis is noticed today, but there is no hope of recovery based upon the rally. The delirium is now almost constant.

## WILL RECEIVE EXTRA PAY.

## HIS WIFE WAS THERE ONLY IN THE SPIRIT

### An Unusual Golden Wedding Anniversary is Celebrated by a White-water Man.

Whitewater, Wis., Nov. 22.—An unusual golden wedding was celebrated here yesterday. Fifty years ago Mr. and Mrs. Morris Pratt were married. Just before her death she promised her husband that she would be with him on her wedding day. The Pratts were the leaders of the spiritualists of the state. Yesterday Mr. Pratt invited twenty friends to his home and read to them a communication from his dead wife, which he said came to him yesterday. A feast was spread and the wedding celebration held just as though the dead woman was present.

## ROBBERS AT BELOIT ARE IDENTIFIED

### Mrs. Curry Recognizes Her Assailant—M. Tobin and Ed. Devers Are Under Arrest.

Beloit, Wis., Nov. 22.—The police yesterday afternoon arrested two Beloit men, Michael Tobin and Edward Devers, charged with being parties to the robbery on the Curry farm on Sunday night. The men are positively identified by Mrs. Curry.

The identification of Tobin was quite a dramatic scene. It took place in the police court, where the prisoners were compelled to confront Mrs. Curry whom they had shamefully misused. Tobin was the first taken before her masked as on the night of the robbery. "You are the man," said Mrs. Curry, "you are the one who held me and sat on me. But you did not use me very rough, it was your companion who pounded me."

"I never saw you before," replied Tobin. "Well, I saw you Sunday night and while you were sitting on my chest, I noticed a scar on your nose, if the officers will remove the mask they will see it." And the scar was there. At this Tobin almost fell from his chair.

The prisoners were turned over to Illinois officers. They did not ask for extradition papers, preferring to get beyond the wrath of Beloit people as soon as possible. The third one of the robbers was arrested on Monday.

## BONI'S COUSIN IN NEW YORK.

### Count Aldemar Castellane Travels Incognito Under Family Name.

New York, Nov. 22.—The Herald says: "Count Aldemar de Castellane arrived from abroad incognito on the steamship Aquitaine. The count, who is a cousin of Count Boni de Castellane, embarked from Cherbourg last week. Under a forgotten family name he passed unrecognized on board the Aquitaine. He was registered on the ship's books as 'Comte de Norante.' His only traveling companions were M. Paleologue, an artist, and their man servant. The party brought little baggage and were among the first to leave the ship. Even the captain of the French liner was in ignorance of the identity of 'Comte de Norante.' He arrived unheralded at a local hotel and was found stopping there last night. A report that the count is engaged to Miss Lucille Bacon, daughter of Daniel Bacon of this city, was denied by Mrs. Bacon. Mr. Bacon also discredited the report."

## PAY FOR DELAGOA BAY ROAD.

### Award for the Original Owners is Settled by Portugal.

London, Nov. 22.—The Delagoa Bay railroad award was paid today. The Americans received their share through the Belgians. The award of \$3,062,800, with interest at 5 per cent from June 25, 1899, is the result of the seizure of the Delagoa Bay railroad by Portugal. Besides the principal of the award and the interest, totaling about \$5,000,000, Portugal paid on account \$140,000 in 1890. The Americans interested are the heirs of Col. McMurdo, who, with several English capitalists, built the road.

## KRUGER IS GIVEN A GREAT OVATION

Seventy Thousand Turn Out to Greet Him at Marseilles.

## FRANCE WILD OVER HIM

Boer President Received an Enthusiastic Welcome as He Landed Today.

## PARIS ALSO MUCH EXCITED.

Marseilles, Nov. 22.—At 10:45 o'clock this morning Kruger landed from the cruiser Gelderland and received a vociferous welcome. After handshaking at the quay the police made a path to the carriages and the procession started for the hotel. The Boer president occupied a leading carriage and was wildly cheered along the route.

### Thanks French People.

Upon landing Kruger made a speech thanking the French government for its sympathy with the Transvaal government and his cordial reception. His remarks were generally cheered but there was some ironical laughter at the "French government's reception" which caused a temporary disturbance.

Proceeding Kruger said: "Since Jamison's endeavor to conquer the country without making a fight a terrible war has been thrust upon us notwithstanding our reiterated claim for arbitration which has been refused by England. The war is a barbarous one, but we feel that we have been fighting a barbarous nation."

### Fight to Bitter End.

Mr. Kruger then thanked the committee for its good wishes and the people of Marseilles for their hearty welcome. He expressed himself as profoundly touched by the welcome in France which was the home of liberty.

Referring again to the Transvaal Kruger said their farms were being burned, their wives hunted from their homes while the husbands were fighting on the battle-fields, but whatever was done, the Boers would resist to the bitter end.

Messrs. Leyds, Grobler and Fischer stood behind Kruger while the speech was delivered. Despite the great show of enthusiasm in the town there has been an entire absence of anti-English demonstrations.

### Crowd Placed at 70,000.

Bad weather and the element of uncertainty as to the time of President Kruger's arrival kept many thousands even today from the route. Seventy thousand would be a generous estimate of the crowd, which was massed thickly at several points, while only sparse assemblies were to be seen elsewhere.

### Picturesque Scene at Dock.

The scene at the dock was very picturesque. Every coign of vantage was occupied by sight seers. The landing stage was gaily decorated with the Transvaal and Free State colors, the French tri-color and shields bearing the blue cross of the arms of Marseilles.

A red carpet covered the ground forming a bright splash of color at the quayside. Decorations elsewhere in the city were practically non-existent, only a few flags being visible along the route which Mr. Kruger traversed in going from the quay to the hotel.

Senator Pauliat, the president and other members of the Paris and Marseilles reception committee, assembled at the landing stage during the forenoon, and behind them, drawn up in line, were delegations of various patriotic societies, with embroidered silk standards.

### Watch From the Lighthouse.

The Sainte Marie Lighthouse at the end of the breakwater served as a viewpoint for a large gathering of spectators, as the Gelderland was seen first from there. Numbers of small boats were flitting about the inner harbor filled with spectators. Some of the boats were decorated with little Boer and French flags, but none of the steamers at the dock were dressed with bunting.

### Enthusiasm in Paris.

Paris, Nov. 22.—The slow approach of President Kruger has had the result that every hour the enthusiasm is becoming more universal and freer from all political dress. The nationalists began the movement, but it has now escaped entirely from their control. It is reported on good authority here today that the prefect will receive President Kruger at Marseilles in the government's name. This announcement has caused a most excellent effect. Every sign of disorder now seems to have disappeared, and bad weather is the only element that can mar the fête.

The prefect of police here has fixed the route which the Boer president will follow on arriving in Paris. The English embassy will be guarded.

## ANOTHER GREAT GAME SATURDAY

WISCONSIN-ILLINOIS TO CONTEST AT CAMP RANDALL.

Both Teams Are in Excellent Physical Condition, and Will Put Up a Fine Quality of Football—Word Received from President Adams—Freshmen Measurements.

Madison, Nov. 22.—It has been definitely arranged to hold the Wisconsin-Illinois game here next Saturday at Camp Randall instead of on Thanksgiving day as originally scheduled. Both teams are in excellent physical condition and will put up a fine quality of football. The Illinois team has met with some discouraging defeats this year, but are in better shape now than ever before in the present season. They play a fast, snappy game and promise to give the 'varsity a good chase for the victory. Although the Badgers will undoubtedly win out, the score will probably be lower than the Chicago score of last Saturday.

Messrs. Everts Wrenn and Ralph Hoagland will be the officials. Both of the railroad companies will sell excursion tickets to the game from all points in southern Wisconsin.

The Thanksgiving contest is still in doubt. Coach King is trying to secure a big game for that day to be played in Milwaukee, but has not yet been able to make an agreement with any big team. Phil King says that he would like to secure a game with Iowa, and Athletic director, Slichter, although very reticent on the subject, will not deny that negotiations are being carried on with the Hawkeyes for a post-season game.

Word from President Adams. Registrar Hiestand has received a letter from President Adams it being the first news received from the absent president since his departure. Dr. Adams is feeling well and with the benefits of the mild Mediterranean climate is confident of permanently regaining his health.

Freshmen Measurements. Since the beginning of the college year, Dr. Elsom, professor of physical culture has been taking the physical measurements of the freshman class and has just completed the averages of that class. He finds that the class of 1904 is superior in physical proportions to the class of 1903. For several years past there has been a noticeable increase in the size of the men who come to the University. From this it would appear that the old theory that higher education is for men of inferior physical development is exploded. Dr. Elsom does not state how much the modern interest in football and other athletic sports has to do with this increase in the size of the college men.

Janesville Y. M. C. A. Convention. A student delegation of at least fifteen will attend the state convention of the Y. M. C. A. in Janesville. Part of them will leave tonight but the larger number will wait until Friday morning before going. The students who will go to Janesville are excused from attendance upon lectures and recitations during the time of the convention.

THE JANESVILLE Y. M. C. A. Association Was Started In This City In April, 1892.

The Janesville Y. M. C. A. association was started in this city in April, 1892. Great interest was taken in the organization from the start. Judge B. F. Dunwiddie was elected president, and a movement was at once put on foot to secure land and erect a suitable building. Meetings were held at the different churches, subscription

## To Doubt This

Is to Disbelieve the Evidence of Your Own Senses.

It's Janesville proof for Janesville people. It's local endorsement for local readers. It will stand the most rigid investigation.

Mr. Thos. Pratt of 281 South Main St. says: "I doctored off and on for forty years, attempting to rid myself of backache, which came on by spells, very painful when at their height and even when somewhat allayed, the dull aching was sure to manifest itself. I overtaxed myself, caught cold or did any work which brought a strain on the muscles of the back. Often I have been so lame and sore that there were days I was confined to my room almost helpless, certainly unable to get up or down. Like a great many other people in Janesville I procured Doan's Kidney Pills at the People's Drug Co.'s store, led to do so by the peculiar advertisement which riveted my attention. After taking a thorough course of the remedy I was able to go to the quarry and sling an eighteen pound hammer without showing any signs of a recurrence. If I am subjected to future attacks I know what remedy to employ."

papers circulated, and enough money was secured to assure the directors that they could safely proceed with the plans for the building.

A fine location for the proposed building was secured on West Milwaukee street from the Doe estate, and in April, 1892, ground was broken for the building. On April 3, 1893, the corner stone was laid with imposing ceremonies. December 1, 1895, the building was occupied by the association. The building with the lot on which it stands cost \$27,000.

During the summer of 1899 a dormitory building, costing \$6,000 was added, bringing the total value of the property as it now stands up to \$33,000. The year 1899 found the Janesville association with a debt of \$10,000 hanging over it. A number of the leading members determined that something should be done to raise the debt, and with this in view started out with a subscription paper, and at the time the state convention was held in Green Bay, October 12 to 15, they were able to present a report showing the Janesville association to be entirely out of debt.

The building is strikingly located at the corner of West Milwaukee and High streets, and is an honor to the city. The exterior is of brick and stone and the interior is finished throughout with hard wood. It has all the modern

conveniences, including baths, sleeping rooms, and barber shop. It has a fine gymnasium and large auditorium, reading rooms where all the latest periodicals are kept, with a large parlor and spacious offices for the officers.

The expenses from October, 1899, to October, 1900, were \$3,519.72, and the receipts \$3,290.54. The estimate expense from October, 1900 to October, 1901, is \$4,410.68. The membership October 1st, 1899, was 320, at present it is 345, an increase of twenty-five during the past season.

It was during J. M. Whitehead's administration in 1893 as president of the association, that the first paid man was secured. J. C. Kline was employed as general secretary, and has held the position up to the present time. A great deal of credit is due Secretary Kline for his efforts in building up the association. He has worked hard and has an association under his charge that is a credit to any man.

Dr. E. E. Loomis was the third president of the association and still holds the position. He was first elected to the office in 1894, and reelected each succeeding year.

The association has grown to such proportions that four men are regularly employed about the building, and one lady takes care of the dormitories. It is the intention of the board of directors to raise \$1,000 between now and the first of January by subscription. The running expenses are such that this amount is actually needed to carry the association through the coming year.

### REV. R. CHENEY IMPROVING.

Secretary H. W. Carter returned yesterday from the bedside of Rev. R. Cheney, at St. Agnes hospital, Fond du Lac, and reports slow improvement. The doctors agree that the seat of his difficulty is kidney trouble, not apoplexy or insanity. They expect recovery after a long rest. He failed to recognize even his wife from the time he was discovered Wednesday noon in the Northwestern depot in Fond du Lac, unable to tell what place he wished a ticket, until Saturday evening when partial recognition of friends began. He is only slowly coming to himself.

For ten years Mr. Cheney was a general and the district missionary of the Wisconsin Home Missionary society of the Congregational churches. For over two years he has been pastor of the Endeavor church and principal of the Endeavor academy, having in charge besides these a farm, a brick yard, and a stone quarry. The final overstrain came in connection with a canvass for funds (upon which mission he was in Fond du Lac) to complete the walls of the beginning of a much needed academy building for which the bricks are made about the premises. Mr. Cheney's recovery would doubtless be hastened could he know of funds to complete the walls which would otherwise suffer damage.

Endeavor Academy is one of the three separate christian academies (the others at Ashland and Rochester) which are reaching a class of students not otherwise reached, which are feeding the Christian colleges and maintaining a standard of Christian education not otherwise likely to be maintained.

Prof. A. W. Burr of Beloit, has a fatherly fostering care of them all. Mr. Cheney has filled a place of unique usefulness, and his loss, even temporarily from the work, seems irreparable.—Beloit Free Press.

### St. Andrew's Day.

The Rock County Caledonia society will hold an old time social at their rooms on Friday evening, November 30. Don't forget the date. The quarterly meeting will be held on Thursday, December 6 at 2 o'clock.

HANOVER. Hanover, Nov. 22.—Charles Borken-hagen has just finished drilling a well at the residence of Rev. Mueller. Chas. Tuibert has commenced a new house on his farm. The foundation is nearly done.

The cold weather has put a stop to fishing, much to the regret of some of our local fishermen.

J. F. Jackson is doing good work at the mill these days; plenty of water. E. P. Brown enjoyed a visit from his brother, W. P. Brown, of Washington, D. C.

Fire destroyed the blacksmith shop occupied by Frank Lentz Friday night. The building belonged to the Chas. Damerow estate and was insured for \$200. The contents, owned by Mr. Lentz, were insured for \$150.

M. Ehlringer is in Milwaukee this week. C. F. Mathias is building a new barn.

### STATE NEWS IN BRIEF

White Cloud flour is the best that money can buy. We mean every word of it. How can we put it more plainly. Your money back if you don't like it. But better yet, just ask someone who has tried it. We wouldn't have so much to say about it if it wasn't such a genuine good bargain and trade winner. If you haven't already tried it try it at once. You will be money ahead. Dedrick Bros.

## Nothing Tastes Good

And eating is simply perfunctory—done because it must be.

This is the common complaint of the dyspeptic.

If eating sparingly would cure dyspepsia, few would suffer from it long.

The only way to cure dyspepsia, which is difficult digestion, is to give vigor and tone to the stomach and the whole digestive system.

Hood's Sarsaparilla cured the niece of Frank Fay, 105 N. St., South Boston, Mass., who writes that she had been a great sufferer from dyspepsia for six years; had been without appetite and had been troubled with sour stomach and headache. She had tried many other medicines in vain. Two bottles of Hood's Sarsaparilla made her well.

## FADETTE'S GIVE A VERY FINE CONCERT

Y. M. C. A. Hall Crowded to the Doors Last Night—Violin Work by Miss Webb a Feature.

The violin playing of Miss Bertha Webb was a feature of the Fadette concert which opened the Y. M. C. A. course last night. The house was packed from the doors to the platform with an interested audience.

The company consists of twenty-one lady artists, each an artist in her particular line. The orchestra consists of eighteen lady musicians with Mrs. Caroline B. Nichols as conductor. Miss Charlotte Lynn sang "Farewell Ye Hills" in a rich soprano voice and gracefully responded to an encore. A grand selection from Wagner's "Lohengrin" gave the orchestra an opportunity to play some fine solo parts.

The Y. M. C. A. entertainment committee have held good their promise of one of the best concerts ever held in Janesville.

Believes Andrea Is Alive.

Minneapolis, Minn., Nov. 22.—Dr. George H. Shurburg of Troy, N. Y., who has spent some time in the Arctic regions, believes that Andrea is still alive, but shut out from the rest of the world by a sea of ice. Dr. Shurburg is contemplating a trip to Greenland next spring. The object of the voyage, he says, will be to determine if Greenland is a solid body of land or if it forms an archipelago at its extreme northern extremity.

**Prisoners Help in Thrashing.**

Topeka, Kan., Nov. 22.—Men who conduct thrashing machines in Central Kansas are calling for help. Much of the wheat will remain in stack over winter. Yesterday at Albiene the police authorities were requested to release three prisoners held on trivial charges to help out a thrashing gang. The Salina police station also gave up two inmates, who went to the country with the thrashers.

**Woman on Trial for Murder.**

Eldorado, Kas., Nov. 22.—Miss Jessie Morrison, charged with killing Mrs. G. Olin Castle last June, by cutting her throat with a razor, was placed on trial here today. The case is one of the most remarkable in the history of Kansas' crimes. Miss Morrison's alleged motive for the murder was jealousy, she having been a former sweetheart of Castle, who is a clerk in a local "racket" store.

**Corn Is Still Rising.**

Chicago, Nov. 22.—The corn trade has kept George H. Phillips, the young bull leader, very busy. The price advanced from 41 1/2 cents to 45 cents. Phillips helped it along a little, but it was the impression of the operators who stood in the pit, which was crowded with excited operators, that he had bought more than he had sold.

## THE CIVIL SERVICE HUMBLED.

There are some things in this world that spring into popularity, through ignorance, without merit; just as the free silver craze did in 1896.

There are some men who ride into notoriety on a hobby, just as Debs did in 1894, and Bryan two years later, and just as Grover Cleveland did in 1892.

Mr. Cleveland's hobby was reform. The most dangerous hobby that a man can straddle, because the most fascinating. One of Mr. Cleveland's reform hobbies was civil service, and when he sprung it, on the nation as an issue in his last campaign, people stood around with mouths open and said, "What a great man is Grover Cleveland, no wonder he has to have his hats and collars made to order."

They expected that when the 100,000 or less, government employees, were protected from work and responsibility by the civil service act, that the rest of the 69,900,000 people would discover a panacea for all the ills of life, and the white winged, dove of peace and prosperity would light on every house top and build her nest for permanent abode.

Grover Cleveland was the modern Moses, who had led the people out of the wilderness, to the high pinnacle of civil service reform, and showed them the glory of a nation redeemed from corruption. Great was Grover Cleveland.

Preachers, troubled with a high ideal, dilated on prospective national purity.

College bred writers, who couldn't tell a caucus from a prayer meeting, produced lengthy treatises on the fertile topic.

Political economists found a place for a new doctrine in their text books. The atmosphere was permeated with civil service reform and any journal that dared to raise a protest was tabooed and threatened with boycott.

In the meantime the business and political world patiently waited developments. Skeptical from the first, they were not long in discovering the weakness of the system, and the inefficiency of the service. For eight years this class of men, and they are the most interested, have suffered without open complaint, all sorts of inconvenience as the result of exploiting this fad, and they are likely to continue to suffer until some intelligent congress possesses the nerve to abolish it.

There are more time servers on the government pay roll today than at any time in the history of the nation.

Ask any postmaster of any prominent office, what he thinks of the civil service, and if he has the courage to express his convictions he will tell you that he is largely a figurehead, that aside from his deputy, his office is run by a lot of people appointed by the government under the civil service act. That his authority over them is extremely limited, excepting in cases of dishonesty or gross inefficiency.

He will also tell you that this army of government clerks throughout the country is organized for mutual protection, and that they dictate who shall be recommended as substitutes and to fill vacancies.

He has discovered that absolute loyalty to his administration is the exception, and not the rule, because he has been deprived of the authority that commands loyalty.

How long would a business man put up with this kind of nonsense, or how long would an employe in any other line of work hold a position under similar conditions? About fifteen minutes or less.

But, someone says, the picture is overdrawn. Experience is usually a good teacher, and experience bears out the facts.

A member of The Gazette force had occasion to take up his residence in Texas a year ago. The first thing he did was to hire a post office box and send the number home, and while mail was forwarded to him every day it took the government protected employe in Texas three weeks to discover that he was a paid patron of the office.

A Jamesville lady recently spent a month in South Dakota and ordered the daily to her address. She received two copies in two weeks, yet the paper left the Jamesville office regularly every day. The paper has discovered that it takes from two to four weeks to establish new delivery in almost any office outside the county, and this through no fault of the Jamesville office, which is well served.

These conditions exist because the service is weak and irresponsible. If the postmaster had the same authority as the employer of any other kind of labor, the service would be increased in value and efficiency one hundred per cent. in thirty days. What the country needs is less civ-

il service, and more service. Less red tape, and more brown bread and beeswax. Less disloyalty and more loyalty. Less theory and more fact.

There are some departments of government service like the carrier, detective and route agent service that require experience, and should be protected by the merit system. But the kindest thing that could be done for the average routine clerk, whose business can be mastered by any intelligent young man or woman in sixty days, would be to turn them loose in a world full of opportunities occasionally, where destiny means more than government service, destitute of practical knowledge at a few dollars a week.

The civil service may be lofty in ideal, and plausible in theory, but it amounts to a farce in fact, and the American people will some day consign it to "innocuous desuetude."

Uncle Billy Smith of Adel, Iowa, is waiting anxiously for the old court house, which is now being torn down, to be removed. The old gentleman deposited with the corner stone, forty-two years ago, a jug of whiskey, which he thinks should be fully ripe by this time. Iowa was not always a prohibition state.

Chicago is a tax burdened city. \$35,000,000 was required to pay the running expenses last year, or about \$21.00 per capita. There are thousands of acres of outlying property where the street improvements alone will cost more than the lots will sell for in the next ten years.

The annual slaughter of hunters and deer closed yesterday. Just how many deer were killed will never be known, but twenty-four hunters are on the maimed and killed list, with several counties to hear from.

Congressman Bailey of Texas, says that the democratic party is all right and needs no reorganization. It should be remembered that Bailey comes from a democratic state, of the class where anything goes.

Senator Kyle of South Dakota is rejoicing over the defeat of his colleague, Senator Pettigrew. The state also has occasion to rejoice.

## BEAUTIFUL DISPLAY OF FALL FLOWERS

The flower loving portion of Jamesville has enjoyed a treat this week at the chrysanthemum show of the Lynn Street green house.

As the visitor stood at the door he looked down a vista beautiful in the extreme. The great shaggy blossoms in white, yellow, deep red, pink and heliotrope were massed together on either hand as closely as they could stand. It is estimated that there are at least 5,000 blossoms. Many of the finest specimens measured five inches in diameter, and the tallest single blossom plant could not have been under four feet high.

Inquiry elicited the information that any of the plants could be brought to the size and beauty of the best by cutting back all buds and cutting off branches, thus throwing all the vigor of the growth into one consummate effort, nearly as large as a small football. These, naturally, are the costly ones, but as chrysanthemums will last for weeks with care they are a profitable investment. And they looked so sturdy and hardy as though they rejoiced to be alive. Their season is from October till Christmas and they are well styled "autumn green."

In addition to the chrysanthemum house which is 50 x 12 feet the greenhouse comprises the rose house, 50x20 feet, and the carnation department, 50 x 12 feet. A specialty is made of the plants already enumerated, plus violets and callas. Of course all the others are held back that the shaggy autumn favorite shall have its proper lining. The show was in operation Tuesday and yesterday and is still on today.

## AUTOMATIC STAMP IN THE POSTOFFICE

New Machine Which the Government is Putting in Operation in the Local Office.

The employes of the Jamesville post-office are much pleased with an automatic stamp cancelling machine which the government is putting in operation in the office. The machine is operated by electricity and the letters are fed into it upside down.

They are carried by an attachment along a slot to a rapidly revolving wheel which has a cancelling device and date on its face. The letter passes through the slot and the machine cancels the stamp and puts on the date. The letter then passes on to a wheel shaped like an augur and is carried on to a trough where they are pushed along into a package.

The machine will do away with a great amount of noise and work and lightens the work of the employes in a great degree. It is made by the American Postal Machine company of Boston, Mass. The power to operate it is furnished by the Jamesville Electric company.

This style of machine is being introduced into a great number of offices by the government where a large number of letters have to be handled.

Mr. E. H. Merritt, who is employed by the government putting in these machines has been on the road since last July and will go from here to Ashland as soon as the machine is in running order which he hopes will be tonight.

## AN IMPORTANT CHANGE.

A Large Company's Branch in Jamesville.

N. B. Robinson & Co. having decided to go out of the wholesale beer business, the Blatz Brewing Co., of Milwaukee, has established a Jamesville branch with offices at No. 18 East Milwaukee street, room 12, and will hereafter represent its own interests in this city. Messrs. E. Boots and Henry Casey, gentlemen who are well and favorably known about the city, have been retained by the Blatz Company, and it will be their aim to promptly fill all orders sent to the above address, or telephoned to "675 Rock Co.," or "447 Wisconsin Co."

Comment regarding this company's products seems unnecessary at this time, as the Blatz brews are held in highest regard by beer drinkers everywhere.

## SONG SERVICE THIS P. M.

Busy Day at the Association  
Building Receiving Rap-  
idly Increasing Growth

## LARGE ARRIVALS TOMORROW

The 26th annual convention of the Wisconsin Y. M. C. A. association was opened here this afternoon at 2:30 o'clock by C. B. Willis of Milwaukee, general secretary.

The building presented an animated appearance at all times of the day. Delegates from different parts of the state arriving and presenting their credentials to the secretary. The entertainment committee was kept busy to houses and homes where they would be lodged during the convention.

To provide stopping places for some three hundred delegates was no easy matter, and the committee was kept busy seeing that none were overlooked.

Secretary Kline and his assistants, assisted by State Secretary F. E. Anderson, of Milwaukee, soon had matters straightened out and everything in readiness to proceed with the general program which was called at 2:30 o'clock.

### The Afternoon Session.

The afternoon session was opened with a song service led by Secretary C. B. Willis of Milwaukee. State Secretary Anderson then led a quiet hour devoted to prayer.

### Oshkosh is After It.

The Oshkosh Y. M. C. A. will make a determined effort to secure the state convention of the association for that city for next year. It is claimed that the board of directors of the association are in favor of Oshkosh for the meeting next year. A formal invitation to hold the convention in that city will be presented to the association by the Oshkosh Y. M. C. A. some time this week.

### Still Looking for Places.

The entertainment committee are still looking for places to entertain the visiting delegates. The people of the city are very backward about taking in the delegates and at present there are about 125 looking for places to stay. The building is now taxed to its utmost capacity and many beds have been made on the floors of the dormitory to give the visitors a place to sleep. The entertainment committee earnestly request that anyone having a spare room will come forward and help them out of their present difficulty.

### ORGANIZATION IN THE STATE.

First Y. M. C. A. Started in Milwaukee in 1870.

The state association of the Y. M. C. A. was organized in Milwaukee in 1870. H. J. Cowles of Madison was the first president and W. E. Lewis of Milwaukee the first state secretary. To Janesville belongs the honor of holding the first and last state conven-  
tion.

The first was held in this city on Nov. 3-5, 1870. At that convention thirteen associations were represented. With two corresponding members. At that time the association was young and struggling for a foothold in the state. It has had a steady growth until today a convention is being held where thirty-five associations are being represented with over three hundred delegates in attendance. The last state convention held in this city was in 1894, and at that time twenty-nine associations were represented and one hundred and fifty-five delegates and forty-two corresponding members were present.

The first state convention was held in this city in 1870. In 1871 the second was held in Whitewater. The third was not held until 1871, and since that time one has been held each year. During the thirty years that the state association has been in existence Janesville has furnished four presidents that honor falling to this city oftener than to any other city represented in the association.

The president of the association at present is H. A. Molnab, cashier of the Citizens' Bank at Clinton. He was first elected president at Wauke-  
shah in 1898 and was re-elected at Green Bay last year. He is an active worker in the Y. M. C. A. ranks and is always ready to give his help to the advancement of the interests of the association.

Great good has been done by the association in all parts of the state. Hundreds of young men have been helped along and put in a way of earning an honest living when had they been left to their own devices they would have ended in the house of correction. The association is gaining strength every day and the amount of good done by it increases in proportion to the increase in membership.

## CLOAK STORE HAS CLOSED ITS DOORS

The Chicago Concern Run by N. La-  
don Fails—Isabel Company  
is the Largest Creditor.

The Chicago Cloak and Fur House on the bridge which has been run by N. Ladan closed its doors this morn-  
ing.

Mr. Ladan says that the town is not large enough to support an exclusive cloak and fur house. He has lost considerable money in the venture and de-  
cided to close his business before be-  
coming more involved.

A large portion of the stock in the store was sent to Mr. Ladan with the understanding that if the venture was not a success the goods should be re-  
turned to their owners. A large num-  
ber of the representatives of the dif-  
ferent firms came to the city yesterday  
and took possession of their property.

Several attachments were taken out  
by parties around town that had bills  
against the concern. The Isabel  
Company was the largest creditor in this  
city.

Although Mr. Ladan has lost consid-  
erable money in the venture he claims  
that no one will lose a cent by his clos-  
ing up the business.

## WISCONSIN CARRIAGE COMPANY PLANT

A Complete Factory Now Nearly  
Ready for Occupancy—Is a  
Model Concern.

A few days more will see one of the  
most commodious and complete car-  
riage factories in Wisconsin in full  
operation in this city. The plant of  
the Wisconsin Carriage Company at  
the corner of West Milwaukee and  
Marion streets is having the finishing  
touches put upon it and made ready  
for occupancy.

The building is three stories high  
with a frontage of one hundred and  
twenty feet on Milwaukee street and  
one hundred and twenty feet on Mar-  
ion street with a depth of sixty feet  
and is equipped with all of the latest  
machines known to the carriage  
building trade. A sixty horse power  
boiler furnishes the power for running  
the machinery, heating the plant and  
operating an immense elevator, cap-  
able of taking the largest sized carry-  
all or horse on its platform.

The entire building has been arrang-  
ed with an idea of making use of every  
foot of available space. On the first  
floor fronting on Milwaukee street are  
handsome and well lighted offices, fur-  
nished in hard pine with hard wood  
floors. A large fire-proof vault with  
double doors has been constructed, so  
that in case of fire the books and val-  
uables of the firm will have complete  
protection.

The balance of the front floor is di-  
vided off into wood working and black-  
smith shops and a large show room  
fronting on Milwaukee street.

On the second floor are located the  
paint rooms, trimming rooms and  
stock rooms. The third floor is one  
immense store room, where wheels  
and finished work can be stored.

The company also have their own  
water system, a well ninety-six feet  
deep having been drilled which fur-  
nishes them a supply of good water for  
all purposes. About fifty hands will  
be employed when the shop starts up  
and the force will be increased from  
time to time as the business demands.

From the top to the bottom the fac-  
tory is a model concern and one that  
Janesville can well feel proud of.

## BARLASS, WAUFLE, CARGUS IMBROGLIO

The action of F. M. Wauffe against  
John Barlass has been on trial in the  
municipal court for the last two days.  
It seems that Wauffe sold one Frank  
Cargus a corn binder for \$100. Car-  
gus is a tenant on the farm of John  
Barlass. Barlass has a mortgage on  
all of Cargus' stock for about \$1,000.  
Cargus sold some hogs and presented  
the proceeds, \$100, to Barlass with the  
request that he might use the money  
to pay Wauffe. Cargus claims that  
Barlass promised to pay Wauffe. Bar-  
lass claims that he agreed to try and  
settle with Wauffe but could not do it,  
because Wauffe would not allow a  
church bill. Barlass gave Cargus  
credit for \$100 received on the mor-  
gage. Wauffe has sued Barlass claim-  
ing that he had an unconditional prom-  
ise to pay him \$100. The court has  
taken the matter under advisement.

## BANDITS HOLD UP A TRAIN.

Cannon Ball Special Stopped in Arkansas

BY GANG OF SIX WHITE MEN.

Attempt to Blow Up Express Safe Abandoned—Robbers Escape on Horseback with Little Money.

Little Rock, Ark., Nov. 22.—The north-bound Iron Mountain Cannon Ball passenger train, in charge of Conductor John Whiteside and Engineer Eggleston, due in Little Rock at 8:10 o'clock, was held up by six masked men at Gifford, five miles this side of Malvern, at 7:15 o'clock last evening.

The train was held at the scene of the robbery forty-five minutes, and pulled into the union station one hour and thirty minutes late.

The robbers covered the track with ties and built a huge fire in the center of the pile. The engineer, suspicious of an attempted robbery, tried to pull through, but the ties caught the pilot and stopped the wheels. Instantly three masked men told the engineer and fireman to come down at once. Another one of the robbers went on the side of the train and called to the conductor to stay inside. Each order was promptly obeyed.

While the four robbers were standing guard and occasionally firing a shot to frighten the passengers, the two remaining bandits entered the express car and ordered Messenger Samuel W. Avey, who resides at 3118 Brantner place, St. Louis, to step aside or get to the other corner. The large safe was charged five times with dynamite, each explosion making a terrific noise and tearing off some portions of the car. A large hole was bored into the door of the safe, but an entrance could not be effected. The robbers finally announced that they were out of dynamite and gave up the task of forcing the door.

They then picked up the local box and several packages and ran to their horses hitched near by and rode rapidly off.

No attempt was made to disturb or molest passengers, except an occasional shot at a passenger who happened to be peering out of a car window.

Messenger Avey was hurt about the head and face by flying splinters from the effects of the dynamite explosion. One side of his face was badly cut in several places and several teeth were knocked out. He was taken to his home at St. Louis on the same train. The top and one side of the express car were almost torn to pieces. The sheriff of Hot Springs county organized a posse and started in pursuit of the robbers.

The train crew say the robbers were white men and wore heavy masks. The small box carried off by the robbers contained about \$500. The robbers also secured a sack of silver containing \$190.

## THE CHANGE OF LIFE

Is the most important period in a woman's existence. Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

Those dreadful hot flashes, sending the blood surging to the heart until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are symptoms of a dangerous, nervous trouble. Those hot flashes are just so many calls from nature for help. The nerves are crying out for assistance. The cry should be heeded in time. Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It builds up the weakened nervous system, and enables a woman to pass that grand change triumphantly.

## CANNOT SPARE NICHOLAS.

Czar's Death Would Retard Civilization.

DR. TALMAGE'S STRONG WORDS

Says That the Peace of Europe and the Progress of the World Is at Stake—Best Friend in Europe of the United States.

Washington, Nov. 22.—Dr. Talmage, pastor of the President's church, is deeply affected by the nature of the dispatches that come from St. Petersburg, telling of the seriousness of the Czar's illness. Today he said:

"The serious illness of the Czar of Russia fills me with inexpressible grief. His death would be a hemispheric, yes, a world-wide calamity. He represents peace on earth and good will to men. The conference at The Hague will keep his name in honor as long as the world lasts.

"If I ever saw an honest man, I saw one when I saw him. Kindness in every feature of his face and every word of his mouth.

"Russia cannot spare him, nor can the United States spare him, for this country has no such friend in Europe as Russia, and no ruler on earth so much wishes us all as does Emperor Nicholas.

"God help the most beautiful empress of all the earth if this woe shall strike her. It was an old-fashioned love match, as any one could see who saw them.

"Grand Duke Michael would make a worthy successor, but he is only 21 years of age, and it would be an awful thing to have so heavy a burden as the government of Russia rolled on him."

Czar's Condition Better. Livadia, Nov. 22.—The bulletin issued today by the Czar's physicians was more satisfactory. It reads as follows:

"The Czar passed a satisfactory day yesterday. His condition is good. Temperature at 9 last evening, 102.6; pulse, 76. He slept but little during the night, but from no disturbing cause. His majesty's general condition is satisfactory. Temperature this morning, 100.6; pulse, 70."

## COLOR SCHEME IN EACH ROOM VARIED

Pleasant Reception Given by Mrs. David Fifield and Miss Fifield Yesterday Afternoon.

Mrs. David Fifield and Miss Fifield entertained at a reception yesterday at their home, 220 South Main street. The guests were numerous and went in relays covering the hours from 2 to 6. The large and pleasant house was handsomely decorated with chrysanthemums with a different color scheme in each room—yellow and white in the front parlor, dark red in the back parlor and pink in the dining room.

The table decorations were very artistic. A superb piece of drawn work overlay a square of pink silk the edges outlined with pink silk in a billowy effect. Palms and ferns filled the bay window, which was cut off from the rest of the room by a partition of smilax.

The Mandolin club played during the afternoon. Instead of the butterfly fare frequently served on such occasions the refreshments were substantial and the very best of their kind. A very small and youthful Miss Fifield waited at the door and attractive young ladies served in the dining room. A number of society ladies assisted in the parlors. Mrs. Blood of Milwaukee received with the hostesses. A noticeable feature of the occasion was the appearance of gilt in some form in the costume of nearly every guest. The reception was a social reunion of friends, neighbors and acquaintances and was more than ordinarily pleasant.
